Hi Andrew,

Sorry this got lost in responding yesterday!

Yes, we had a number of calls with EPA on this issue: the Board of Directors, some of our groups and also all of our membership. We also had a call regarding its release in the federal register.

By the way, can you resend the federalism meeting info? For some reason I can't seem to find the info on where it's being held. Thanks so much!

Dania

Hi Dania –

Since you guys are specifically mentioned in Mathy's response (attached), I'd be interested in hearing how you'd characterize OLEM's outreach/engagement with you on this.

BTW, OLEM's letter above is in response to a request that NLC, NACo, and USCM sent several days ago. The NLC, NACo and USCM letter I'll forward in the next email is a "second request," one that we received today. They basically "crossed" each other in cyberspace.

Anyway, interested in your candid thoughts. (one more coming)
